Endurance.

A goal every building material aspires to. Where some fail, others excel. At Crossville, we believe you shouldn't have to compromise to get the look you want with the advanced product features you need for your brilliant designs to endure over time.

Introducing Crossville Porcelain Countertops. – where creative solutions don't compromise. Other countertop materials may stain, crack, or yellow; our 12mm thick 100% porcelain products excel. The same as the porcelain tile and panel products you know, these beautiful designs are built to last. Just like your design.

Ready to answer your unique needs.

With over 30 years of experience in our industry, we're adept at answering the unique needs of customer groups. Our range of special programs and products – from traditional porcelain tile to porcelain panels and slabs – are thoughtfully developed to make life simpler for architects, contract designers, residential designers, retailers, and specifiers for national accounts. Whatever you need, we—alongside our distributors' sales teams—are ready to assist.

Highest standards from the inside out.

Crossville® is a subsidiary of The Curran Group, a family-owned, privately held corporation. We run on the same principles that the Currans are known for in all their business endeavors: family, partnership, integrity, improvement, and respect. Get to know us, and you'll find that our unique value system guides our relationships with employees, business associates and with you, our customers.

Reception Desk: State of Grace PO - PC012.1SLAB12

Your Advantage...

Super-realistic visuals combine with advanced technical properties to outperform stone, quartz, and even other sintered and porcelain products available today.

Fired with added fiberglass reinforcement on the back, our countertops are high strength and non-porous. The result of world-class manufacturing is unparalleled in the industry.

LONGER LASTING

- Stain resistant
- Resistant to heat and high temperatures
- Resistant to chemicals, acids, alkalis, and solvents
- Resistant to scratching and abrasions
- Fire resistant

EASIER TO MAINTAIN

- Requires no special cleaning products
- Resistant to mold and fungi
- Graffiti resistant

PERFECT FOR OUTDOORS

- Frost resistant
- Colorfast in UV light and severe climate change

EASIER TO FABRICATE

- Dimensional stability makes it easier to cut
- Stressless product to prevent splintering and cracking
- No stress cuts are required

Our unique combination of innovative porcelain products and incomparable customer service offers creative solutions that other countertops can't deliver, for the look you want and the performance your space demands.

Features & Benefits

Crossville Porcelain Countertops

DISTINCTIVE VALUES

MAIN FEATURES

Dimensions 1620mm x 3240mm (63.8" x 127.6")
 Perfectly Flat
 12mm thick, 30kg/m²

CHEMICAL RESISTANCE

Crossville Porcelain Countertops resist organic and inorganic solvents, disinfectants and detergents. They can be easily cleaned without affecting its surface characteristics; the only product that can attack our counters is hydrofluoric acid.

WEAR RESISTANCE

Crossville Porcelain Countertops are highly scratch resistant and resistant to deep abrasion. The properties of the countertops remain unchanged even after intensive use and frequent cleaning.

HIGH FLEXURAL STRENGTH

Crossville Porcelain Countertops have high modulus of rupture.

FROST RESISTANCE

Crossville Porcelain Countertops' average water absorption is 0.1% making them frost resistant in any weather condition.

FIRE RESISTANT

Crossville Porcelain Countertops do not contain organic material therefore are resistant to fire and high temperatures.

CHROMATIC PROPERTIES

Crossville Porcelain Countertops do not contain organic pigments and are resistant to UV rays. Even in the harshest sunlight colors stay true.

GRAFFITI

Crossville Porcelain Countertops are graffiti resistant. Even the strongest paints can be removed.

COMPARE OUR COUNTERTOPS TO OTHER SURFACING MATERIALS

Technical Considerations

Porcelain Countertops

As a designer, you need to know all the details to make your project a success. We invite you to view our Porcelain Countertops Fabrication Guide for in-depth specification details. For some of the most commonly asked questions, please read on.

What types of edge treatments are available with Crossville Porcelain Countertops?

Crossville Porcelain Countertops may be finished in a variety of ways. Build the product up with mitered edges to your desired thickness. Keep things sleek and modern with a 12mm eased or bullnosed edge. Or bring in the bling with your favorite metallic edging. Here, the creative solution is yours..

Bullnose

Built-up

Edge treatment profiles

What is the minimum distance from the edge I can make a cut?

In the design of the countertop, maintain a minimum distance of 50mm from the outer edge before beginning a cut, including those for sinks, faucets, or plugs. 50mm of material must also be maintained between cuts to ensure stability when handling.

The recommended internal corner radius is a minimum of 5mm to distribute stress. While a 90° internal angle may be obtained using a water-jet process, this type of cut increases the possibility of cracking during cutting, transport, and installation.

What is the full, usable size of a Crossville Porcelain Countertop?

Each slab can be used to obtain a 1620x3240mm usable surface.

What considerations do I need to give for sinks?

For flush mount installations, please leave a minimum of 2mm between the sink or cook top and the porcelain countertop to allow for thermal expansion. When installing an undermount sink, chamfer the edge of the countertop around the hole. Seal the space between the sink/cook top and countertop with silicone, adhesive seal, or an equivalent product. Use one or two support bars fixed to the unit frame to support sinks as this will reduce stress to the countertop.

How do I create an "L" shaped countertop layout?

When creating an "L" shaped counter layout, diagonal joints are not advised. Please seam together in a straight pattern, filling the joint with color-matched silicone or other common seaming materials. Please perform a preliminary check on pieces to make sure both pieces are as compatible as possible.

How far can Crossville Porcelain Countertops overhang?

Overhang dimensions vary by overall countertop proportions. Please refer to our Countertop Fabrication Guide for more information.

For more technical guidance on Crossville Porcelain Countertops, please read our Porcelain Countertop Fabrication Guide.

Suggested Cleaners For Problem Stains

In keeping with Crossville's long-standing position on sustainability, we highly recommend the use of low VOC, non-hazardous, and non-polluting products for cleaning and maintaining countertops (for specific problem stains, please use the following stain removal chart).

These products are used by maintenance professionals and may not be readily available in all areas. Most household cleaners are sufficient to clean common stains. Refer to countertop fabrication guide for additional information. In the case where stain removal becomes a problem, contact a cleaning and maintenance product supplier or your local tile distributor for professional suggestions.

In keeping with its commitment to quality, Crossville® will offer its Technical Service Department for individualized assistance. This department can assist you in the proper installation and maintenance of all Crossville® products. Contact Crossville Technical Services at 931.484.2110.

Crossville® recommends the use of professional cleaning and maintenance products. If additional information or assistance is required on a contaminant not listed, or if you need to find out where the products are sold, please call us, or contact one of the following:

Warranty

CROSSVILLE INCORPORATED/USA Limited Product Warranty Crossville Porcelain Countertops

Crossville Incorporated guarantees that its Crossville Porcelain Countertop products will meet or exceed the performance specifications outlined in the Technical Specifications section of Crossville's Fabrication Guide (LIT-CPCFG-18).

Residential Lifetime Quality Warranty

Should any Crossville Porcelain Countertop products installed in a residential setting fail due to a manufacturing defect, Crossville Inc. will replace the defective product pieces (installation not included). This Crossville Inc.'s Limited Lifetime Warranty covers your purchase of Crossville Porcelain Countertop products for as long as you own your home. This warranty is non-transferable.

Commercial Warranty

In the event of latent defects caused by improper manufacture, the company will replace any defective units FOB Crossville Inc. (installation not included), provided the company is notified within one year of installation or within 18 months of shipment of product, whichever occurs first.

DISCLAIMER

The materials from which Crossville Porcelain Countertops are manufactured are, by their nature, subject to variation in veining and/or color, as well as technical specifications. This is due to the variability of the natural raw ingredients and the production process itself. Such variations do not render the product defective for purposes of this warranty.

The warranties provided in this document to not apply to damage or defects caused by installation, structural design and/or environmental conditions that are beyond the control of the company. Crossville Inc. cannot accept responsibility for the performance of its products where improper installation, design or environmental conditions exist. Any defect, visual or otherwise, that is apparent prior to installation/fabrication is not covered by this warranty. Samples and merchandising are for general reference only.

Additionally, any misuse of the product by the customer including physical or chemical abuse, or negligence is not covered under warranty. Excluded from this warranty is guarantee of the polished finish for damage resulting from exposure to cold liquids (EN 12720), harsh cleaning materials (PTP53), and scratches (EN 101). Neither unpolished (UP) nor polished (PO) finishes are warranted from damage caused by ink (EN 12720).

In no event shall Crossville Inc.'s liability on any claim made by anyone exceed the purchase price paid for the product by said customer in respect to the Crossville Inc. materials on which damages are being claimed.

You can find more information about our many products, along with other Product Performance Data and installation specifications at www.crossvilleinc.com or call (931) 484-2110
